

Water-circulation pumps with D.C. motors

# PAD | 12 V

Water-circulating pump driven by brushless motor

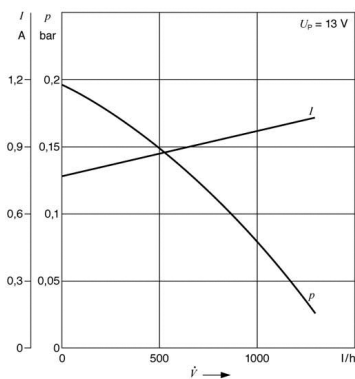

## Technical data

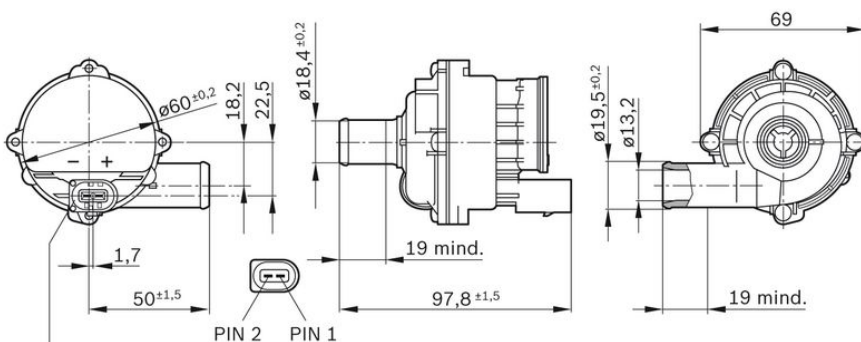

Part number	<b>0 392 023 004</b>
Nominal voltage	$U_N$ 12 V
Delivery quantity	$\dot{V}$ 900 dm <sup>3</sup> ·h <sup>-1</sup>
Delivery pressure	$p$ 0,1 bar
Direction of rotation	R
Type of duty	S 1
Degree of protection	IP 69 K
Weight	approx. 0,3 kg

Circuit diagram for connection please contact us
